

BLADE MASTER MOBILE SERIES

Model M-1561-N 1.5" - 1.5 HP Portable Explosion Proof Transfer Pump

Our patented **Blade Master Mobile Pump Model M-1561-N** is a positive displacement, timed and synchronized, twin impeller- gear pumps engineered for High Volume transfer of light to heavy viscous petroleum products such as **Gasoline, Paints, Home Heating Fuels, Diesel Fuels, Thinners and more!** This Explosion Proof unit is capable of pumping non explosion proof products as well.

Standard Features

- Built in ON/OFF Switch
- Comes w/ 50 ft. 12/3 SOW Power Cord
- Explosion Proof UL Listed Motor (110v/220v - Single Phase Only)
- 10 ft. Inlet/Outlet Explosion Proof 1.5" Hose
- 4 ft. Aluminum Suction Tube & Bung Adapter (inlet side)
- 1.5" Manual Shut-Off Nozzle (outlet side)
- Equipped with Viton Seals (Buna/Nitrile Seals available)
- Quick Release Aluminum Cam Lock Couplings
- Durable 2 Wheel Dolly Cart for Mobility
- Motor to Pump is Double C-face Mounted (**No more Timing or Alignment Problems**)

Blade Master Delivers More!

- Capable of pumping Explosive Products in Explosive Environments
- Engineered to Operate Dry and are Self Priming
- Transfers Gas/Diesel Fuels at **40-60 GPM**
- Versatile in pumping other petroleum products (antifreeze, lubes, ATF, etc.)
- Different Gear Ratios available to handle the right application.
- Wiper Blade Technology and Injected Dupont Plastic Impellers
- Built with our Internal/Reversible By-Pass.
- Rubber mounted to cart and frame for less noise and vibration
- All frames and carts are sprayed with our **NEW Powder Coating Paint.**

These mobile pumps are designed to transfer light and heavy viscous products from 55 gallon drums, above and below ground tanks, and totes. The 2 Wheel Dolly Cart allows more versatility and convenience for any application. Bring your Blade Master to the job site and get the job done
